

# HOSPITALITY DESIGN

Drawing on many years of high-end residential design experience, our evolution into the hotel, hospitality and leisure sectors has been a seamless and natural progression.

We offer design services that span all project stages from initial concept through to delivery. Throughout the process, our commitment to quality, craftsmanship and attention to detail is underpinned by our strong technical expertise.

Materials, light and spatial composition are thoughtfully considered to articulate the visitor journey, crafting a narrative and guest experience which are unique to the project brief.

***‘MSMR’s design outputs are of the highest quality. Their approach on the Bishopsgate Project has been proactive, creative and professional at every stage’.***

**STANHOPE**

*Clients include: UOL, Pan Pacific Hotel Group, Stanhope, Reuben Brothers*
