

PRIVATE RESIDENCES

We work on some of London's most prestigious properties providing bespoke design solutions tailored to the needs of private clients, niche developers and Great Estates. Pairing skill and technical expertise with a meticulous attention to detail, we work with leading contractors and suppliers to deliver projects of exceptional design and quality.

Our in-depth knowledge of planning and heritage legislation is reinforced by well-established working relationships with local authorities including Westminster and the Royal Borough of Kensington and Chelsea. Consequently, we have a proven track record of obtaining valuable planning and listed building consents for our clients, even in the most sensitive, central London locations.

'MSMR Architects has become one of the most influential practices in the London prime residential market'.
